Dear Candidate

As per new guidelines Photocopies of answerbooks are now available in soft copy format. Physical copies have been discontinued.

Photocopy for subject CH-607 ORGANIC CHEMISTRY -II is uploaded in your login account on 10/07/2024 .

Once you are logged in you will see file for download.

The file is in PDF format.

You can take printout of this PDF file.

Revaluation System for the same will get activated after 1 day.Last Date to fill revaluation is 20/07/2024.

Q-2) Attempt any two of the following:-

ii) Chromophore :-

It is an isolated functional group capable of absorbing V.V radiation with called this group at the chromophores. Chroms - colour and phores bearing same important chromophores are

-NO₂ - N=O - N=N - C=O - C=N, C=C, C=S etc

② Auxochrome :-

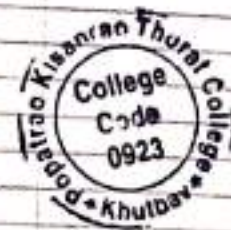

It is a functional group which itself does not absorb radiation in near UV region, but when attached to a chromophore, shift the absorption to longer wavelengths.

Some of the auxochromes - OH, -OR, -NH₂ etc

Q-8) s_{pln} - spin coupling :-

- ① The coupling occurs betⁿ nonequivalent or chemically different protons. Equivalent protons do not couple.
- ② The multiplicity of the peaks is given by $(n+1)$ where n is the total number of neighbouring protons.
- ③ The relative intensities of the peaks within a multiplet is given by the coefficient of the neighbouring protons.
- ④ The splitting occurs in such a way that, chemical shift value is not changed.
- ⑤ The separation betⁿ the peaks within a multiplet is known as coupling constant (J)
- ⑥ It is measured in the cps. Mutually coupled have same coupling constant.

Q-5) a) Lambert's law :-

The absorption of the light energy by the molecule is governed by the famous Beer-Lambert's law. To understand these laws, let us first define a quantity known as

Absorbance (A) :-

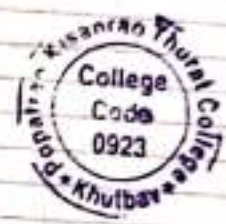

Consider a radiation of the light incident on a sample kept in a tube. The sample absorb part of the incident light and transmit the rest. Let I_0 be the intensity of the incident light and I be the intensity of the transmitted light.

2 Absorbance is then defined as the log of the ratio of intensity of light and transmitted light

$$A = \log \frac{I_0}{I}$$

The Beer's-Lambert's law states that absorbance of a sample is directly proportional to its concentration (C) and to the path length of light (l) through the cuvette.
 $\therefore A \propto C \cdot l$ $\therefore A = C \cdot l$

INSTRUCTIONS TO JUNIOR SUPERVISORS

- Supervisors shall be in attendance at the place of the examination at least thirty minutes before the setting of the first paper and fifteen minutes before the setting of each subsequent paper.
- In distributing question papers, junior supervisors shall begin to hand over the papers from the last candidate in the respective blocks.
- When a paper is divided into two sections, two answer-books, one for each section shall be supplied to the candidates, and only one when it is not so divided. Additional answer-books shall be given only when the book previously given for the whole paper or section is written in. Any required number of additional answer-books may be given according to the needs of the candidate. Supervisors shall take particular care to collect all answer-books whether used or unused, and shall see that no candidate is allowed to retain with him any blank answer-book after the warning bell is rung.
- While the examination is going on, junior supervisors shall carefully look after the block of candidates of which they are assigned.
- Supervisors shall use the utmost vigilance to prevent copying or communication by candidates with one another or with any other person.

3

6. Junior Supervisors

- shall not engage in conversation with candidates during the examination and they shall not read what candidates write.
- shall not give any kind of explanation connected with the question set.
- shall not do any private or office work during the hours of supervision nor shall they, on any account, absent themselves from the place of the examination.
- shall not keep with them any spare copies of question papers after they have been delivered to the candidates.
- shall see that no copy of the question paper is given to any one who is not a candidate appearing for the examination.
- shall see that all the candidates are given the proper question papers in accordance with the subjects they have offered for the examination.
- shall not allow any exchange of writing materials, pencils, mathematical instruments, etc. when the examination is in progress.

7. One hour after the setting of the question paper, junior supervisors shall go round the block they are in charge of and see that the candidates have made all the entries correctly on the front page of each answer-book supplied and have written correctly and legibly their seat number, the subject and the number of the section of each answer-book. Whenever any additional book or books are supplied to candidates they shall also see that all the entries on the front page are properly and correctly made.

8. Junior Supervisors should not allow the candidates to change their seats. They should ensure themselves that the candidates write their seat numbers legibly and accurately on the answer-books are supplied to candidates they shall also see that all the entries on the answer-books and the supplements, for careless writing of wrong seat numbers result in unnecessary complications leading to averaging marks in different seat numbers.

The Junior Supervisors may refer to list of the names of candidates if they have any doubt or difficulty of the identity of the candidates.

- They shall see that no candidate in their block leaves the examination hall without giving back his answer-book or answer-books, as the case may be, whether blank or written in.
- Supervisors shall note down the numbers of such candidates as have given up their answer-books before the ringing of the warning bell at the end of examination.
- Candidates who give up their answer-books before the ringing of the warning bell shall be allowed to leave the hall. But after that, no candidate shall be allowed to leave it till the close of examination.
- Junior Supervisors should see that answer-books, original as well as supplements, that they will supply to the candidates for writing answers are initialed and dated by them at the proper place.
- At the ringing of the final bell, the junior supervisors shall go to each candidate and collect from him all his answer-books. In doing so the junior supervisor shall begin collecting the answer-books from the last seat in their blocks and when the collection work is over shall arrange them in two bundles according to sections and in their serial order. They shall deliver the bundles personally together with their reports, to the Senior Supervisors, and shall not leave the place of the examination without their permission.
